

Letter of Intent (LOI)

Subject: Invitation to Join the International Consortium for Primate Brain Mapping

Dear colleagues,

Given your esteemed expertise in brain mapping, we warmly invite you to join the **International Consortium for Primate Brain Mapping** (the Consortium). Your participation will significantly advance our global effort to understand primate brain structure and function at a mesoscopic scale, driving innovation and discovery in neuroscience.

Benefits of Participation:

- Access to state-of-the-art core facilities, advanced AI mapping tools, and shared datasets.
- Opportunities to collaborate internationally, increasing your scientific impact.
- Contribution to groundbreaking, high-impact neuroscience research.

Participation expectations:

- Active collaboration on shared scientific goals.
- Openness to resource and knowledge sharing within the Consortium's collaborative framework.

To indicate your interest, please complete the brief Letter of Intent (LOI) provided.

We look forward to your positive response and to collaborating with you in this exciting and important venture to advance the frontiers of brain science.

Sincerely,

International Consortium for Primate Brain Mapping

Letter of Intent to Join the International Consortium for Primate Brain Mapping

Membership:

☐ I am interested in participation as an individual member.

Research Interests and Potential Alignment with Consortium Goals:

(Briefly describe your research interest and how they might align with Consortium's stated objectives.)

Proposed Areas for Contribution (Initial Ideas):

(Based on your current work, what types of projects, technologies, datasets, or other resources might you be open to discussing contributing in the future, subject to mutual agreement and the Consortium's established framework/needs)
